SOUTH WHITEHALL TOWNSHIP
LEHIGH COUNTY, PENNSYLVANIA

CONFINED SPACE PERMIT APPLICATION

All applications for Confined Space Permits must be made to the Superintendent or Foreman of the South Whitehall Township Utility Department.

Seventy-two (72) hours notice is required. Permit will be issued upon receipt of the contractor's Confined Space Entry policy, list of available safety equipment and list of trained individuals who will be on site as is required by the Occupational Safety and Health Administration (OSHA), 1926.21(b)(6i.ii). All applicable OSHA standards shall be followed by the contractor, his agents, or employees.

APPROVED BY: _____   DATE: _____

SOUTH WHITEHALL TOWNSHIP

CONFINED SPACE ENTRY POLICIES

There are two types of confined space entries:

1. Permit required.
2. Non permit required.

1. The permit-required entry policy states that any personnel entering into a confined space needs self contained breathing apparatus worn during entry. Air monitoring is also required during entry. A required list of safety equipment and qualified personnel must be on the job. This is all listed on the South Whitehall Confined space Permit required policy.

2. The non-permit required policy does not require self contained breathing apparatus worn during entry. Ventilate manhole using mechanical methods. Air monitoring is required during entry. A required list of safety equipment and personnel must be on the job. This is all listed on the South Whitehall Confined Space Non-Permit Required Policy.

No matter which confined space is being entered a Confined Space Permit Application must be filled out and approved. The contractor must provide all documents with this application.

All South Whitehall Township Sanitary Sewer Manholes are PERMIT REQUIRED entry
